a wyoming detective is on the trail of a serial killer who targets military veterans in this mystery thriller by the author of death on the greasy grass retired denver homicide detective arn anderson is back in his wyoming hometown to restore his boyhood home but that project gets interrupted when an old friend asks him to look into the suspicious deaths of her husband and brother they each seem to have died of natural causes in veterans administration hospitals several hundred miles apart but both victims had almost identical injuries and they may not be the only ones soon arn is looking at a pattern he can't ignore and a growing list of suspects it doesn't take him long to single out an anti military cult

leader who was seen protesting at the hospitals when the murder victims were found then there s the paroled killer from his past who showed up in cheyenne right around the time the killing spree started between dodging his old nemesis and closing in on new ones am fears he might be next on the va slayer s hit list

considering sustainability in its economic environmental and social contexts the contributors take stock of previous research on large technical systems and discuss their sustainability from three main perspectives uses cities and rules and institutions

devoted exclusively to women poets this volume in the undergraduate companion series presents students with an abundance of important resources necessary for 21st century literary research the most authoritative informative and useful sites and print resources have carefully been selected and compiled in a bibliographic guide to the introductory works of 221 women poets who write in english or have works available in english translation representing more than 25 nationalities worldwide the women included in this volume have each contributed significantly to the genre of poetry for each author you will find concise lists of the best sites and printed sources including biographies criticisms dictionaries handbooks indexes concordances journals and bibliographies

an index to library and information science

this work studies three twenty first century novels by richard powers dave eggert and don delillo as representative of a new trend of us fiction concerned with the topic of the technological augmentation of the human condition the different chapters provide from the double perspective of the optimistic transhumanist philosophy and the more balanced approach of critical posthumanism an overview of the narrative strategies used by the writers to explore the possibilities that biotechnology digital technologies and cryonics open up to transcend our human limitations while also warning their readers of their most nefarious consequences ultimately the book puts forward the claim that even if the writers approach the subject from a variety of perspectives and using different narrative styles and techniques they all share a critical posthumanist fear that an unrestrained and unquestioned use of technology for enhancement purposes may bring about disembodiment and dehumanization
